PROJECTS

checkwebdesign.com

2024 January – 2024 March

I created checkwebdesign.com, a platform that offers Sinhala typing, course registration, and payment services. The website was developed using Angular for the front end and Spring Boot for the back end.

Contact Manager

2023 July – 2023 July

I created this Swing application for learning purpose. I practiced java OOP concepts with this application.

Student Management System

2022 July – 2022 July

I developed a Student Management System using PHP. The system allows the admin to perform CRUD operations, while users have access to various interfaces tailored to their roles.

Forex Trading Bot

2024 March – 2024 March

I created this bot to manage pending orders on a grid. After achieving a profit, the bot cancels orders. I developed this bot by integrating the Metatrader app with Python.

EXPERIENCE

IT Executive

2024 April – 2024 December

I worked as an IT Executive at Datamation Systems, where I gained experience in quality assurance (QA), data corrections, user training, database management, .NET releases, and implementing structural changes.

Data Entry Operator

2017 July – 2024 April

I have worked in Maliban Biscuit Manufactories as a Data Entry operator and I got excellent typing skills, data analyzing knowledge with Excel, familiarized with SAP system, knowledge of Quality concepts.

DECLARATION

I hereby declare that all the information provided in this curriculum vitae is true, complete, and accurate to the best of my knowledge.
